

ABET Student Outcome 4: (Engineering Impacts)

an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts

	Level of Achievement: 1	Level of Achievement: 2	Level of Achievement: 3
	Below Expectations	Meets Expectations	Exceeds Expectations
Global Impact	Narrow perspective, with consideration only of immediate impact on current users.	Awareness of current and future impact on users, with low level of analysis.	analysis of current and future impact from a global perspective, and integration of this analysis into engineering design and problem solving.
