

MARQUETTE UNIVERSITY

2018 - 2019 Undergraduate First Destination Survey

Executive Summary

Office of Institutional Research & Analysis and the Career Services Center

First Destination Post-Graduation Outcomes by College:

The information below shows the post-graduation outcome rates for each of the eight undergraduate colleges at Marquette.

Starting Region

Graduates indicated their current location. In 2018-2019, 74 percent are located in Wisconsin or Illinois post-graduation, compared with 73% in 2017-2018 and 2016-2017.

Full-time Employment

Respondents were asked to indicate the relationship of their career goals. Respondents in the military or in post-graduation stipend-paid service positions are excluded from this section.

In 2018-2019, 95% of students with full-time employment reported that they consider their job to be **related to their career goals and/or an entry-level path** that will allow them to achieve their career goals. This is a slight increase from 2017-2018 (93%) and 2016-2017 (94%) graduates.

The table below shows gross starting salaries of full-time, non-temporary employed graduates by college. Respondents in the College of Professional Studies are excluded due to a small number of respondents. The salary numbers exclude those active in the military, those in a post-graduation stipend-paid service position, those in a temporary position, and those employed as Medical Scribes. About 64 percent of full-time employed respondents reported salary information on the survey (compared with 68% in 2017-2018 and 69% in 2016-17).

		Number of Respondents	\$40,000	\$52,000	\$60,000
Overall	2015-2016	579			
	2016-2017	579			
	2017-2018	622			
	2018-2019	548			
Arts and Sciences	2015-2016	64			
	2016-2017	68			
	2017-2018	73			
	2018-2019	76			

Graduate and Professional Education

Those pursuing graduate/professional school were asked to indicate the type of degree they are pursuing and the field of study of the degree. The survey also collected the name of the school, although that information is not included within this report.

About 50% of those pursuing graduate/professional school are pursuing a Master's degree. The "Other professional doctorate" category includes degrees such as Doctor of Optometry (O.D.) and Doctor of Audiology (AuD). The "

Seeking Employment and Planning on Continuing Education

Graduates who indicated they were either seeking employment or planning to continue education were asked to comment on their job search or graduate/professional program search process. For respondents reporting that they were seeking employment and who responded to this follow-up question (n = 159), they had the option to choose from a list of seven options to describe where they are in the process. Respondents could check all that applied to them; therefore, the percentages across each row will not add up to 100%.

For respondents reporting that they were planning to continue education and who responded to this follow-up question (n = 103), they had the option to choose from a list of seven options to describe where they are in the process.

DISCUSSION

Results from this annual survey are distributed to many campus constituency groups and are used to inform current and future students
