

# MU Physical Therapy Application Information Sheet

---

---

All high school student applying for freshman admission at MU are eligible to apply for the Direct Entry Physical Therapy program (DRPT). For students admitted to the DRPT program, Marquette offers a variety of undergraduate majors that incorporate the physical therapy pre-requisite courses for the student's three years of undergraduate study. Students accepted to the DRPT program as incoming freshmen and who satisfy the requirements for continuation in the DPT program, are guaranteed admission to the three-year professional phase after their junior year.

---

---

Current MU students can parallel the curriculum of direct admit PT students that includes the necessary prerequisites for the DPT program. Admission to the professional phase is on a competitive basis with an application process in February of the junior year at MU (or upon completion of the prerequisites course work). The number of spaces available in the DPT class vary each year, but traditionally - internal candidates are accepted each year. For transfer admission questions, please contact [dennis.sobush@mu.edu](mailto:dennis.sobush@mu.edu).
